#2

September 25, 1970

Dear Harold,

I have received your mailings #'1 and 2, of 9/3 and 9/19, and your letter of 9/2.

I thank you for sending me your comments, and I assure you that I will take them quite seriously. I am sorry I missed the reference to the head motion in WW II. I will make sure that the revised version of the paper either makes no mention at all of the irrelevant "jiggle theory," or presents its origin and limitations (of which I am well aware) in detail.

For the sake of your ulcer, I'll refrain from arguing with you at this time. The enclosed letter to Gary should clear some things up.

Sincerely,

Paul
